 Media Bureau

PETITION FOR RULE MAKING

Capstar TX Limited Partnership ("Capstar"), licensee of WRDU(FM), Wilson, North Carolina, by its counsel, hereby submits this Petition for Rule Making, which proposes to delete Channel 291C0 from Wilson, North Carolina and allot Channel 291C0 to Knightdale, North Carolina as that community's first local service. If this Petition is granted, Capstar will file an application for Channel 291C0 at Knightdale and construct the facilities as authorized. The following table summarizes the changes requested in this Petition:

City	Channel	
	Existing	Proposed
Wilson, North Carolina	291C0	---
Knightdale, North Carolina	---	291C0

I. Technical Analysis

1. As demonstrated in the Technical Exhibit, Channel 291C0 can be allotted to Knightdale at coordinates 35-47-50 North Latitude, 78-22-15 West Longitude consistent with Section 73.207 of the Commission's Rules with respect to all existing and proposed domestic allotments and facilities. See Figure 1. A 70 dBu signal can be provided to Knightdale from the

No. of Copies rec'd 014
 List ABCDE
MB 04-112

proposed reference coordinates. *See* Figure 5. The relocation of Station WRDU from Wilson to Knightdale will result in a predicted net gain in population of 8,791 persons within the WRDU 60 dBu contour. *See* Figure 2. The entire loss area will continue to receive at least 5 other aural services and will thus remain well served. *See* Figures 3 and 4.

II. Change in Community of License

2. Capstar desires to change the community of license of Station WRDU from Wilson to Knightdale under the guidelines set forth in *Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870 (1989), *recons. granted in part*, 5 FCC Rcd 7094 (1990). There, the Commission stated that a station may change its community of license without subjecting the license to other expressions of interest if (1) the proposed allotment is mutually exclusive with the current allotment; (2) the current community of license will not be deprived of its only local service; and (3) the proposed arrangement of allotments is preferred under the Commission's allotment priorities. These criteria are met here. First, the proposed use of Channel 291C0 at Knightdale is mutually exclusive with the current use of Channel 291C0 at Wilson. *See* Figure 1. Second, Wilson will not be deprived of its only local service because it will continue to be served by 1 FM and 3 AM stations. *See* Technical Exhibit. Third, the provision of a first local service at Knightdale (2000 U.S. Census population 6,017) under Priority 3 will result in a preferential arrangement of allotments over the retention of a fifth local service at Wilson (2000 U.S. Census population 43,068) under Priority 4. *See Revision of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982).

3. The current 70 dBu contour of Station WRDU covers 100% of the Raleigh and Rocky Mount, North Carolina Urbanized Areas, and over 50 percent of the Durham Urbanized

Area. Knightdale is located in Raleigh, North Carolina Urbanized Area. The proposed 70 dBu contour of Station WRDU will cover 100% of the Raleigh, Rocky Mount, and Durham, North Carolina Urbanized Areas. Therefore, this relocation implicates the Commission's policy regarding the migration of stations into urban areas only as to the Durham Urbanized Area. *See Headland, Alabama and Chattahoochee, Florida*, 10 FCC Rcd 10352 (1995) ("*Headland*"); *Faye and Richard Tuck*, 3 FCC Rcd 5374 (1988) ("*Tuck*"). In making the determination whether to award an urbanized community a first local service preference, the Commission will consider (1) the extent to which the station will provide service to the entire Urbanized Area, (2) the relative populations and proximity of the suburban and central city, and, most importantly, (3) the independence of the suburban community. *Tuck*, 3 FCC Rcd at 5377-78. In this case, from the proposed transmitter site, Station WRDU would place a 70 dBu contour over 100% of the Raleigh Urbanized Area, the Rocky Mount Urbanized Area, and the Durham Urbanized Area. *See* Figure 5. Knightdale's population (2000 U.S. Census 6,017) is 2.2% of that of Raleigh (2000 U.S. Census 276,579), 10.7% of that of Rocky Mount (2000 U.S. Census 56,244), and 3.2% of that of Durham (2000 U.S. Census 187,183). Knightdale is located 14.6 kilometers from Raleigh, 64.4 kilometers from Rocky Mount, and 44.3 kilometers from Durham. These figures are similar to those of other suburban communities granted a first local preference. *See e.g., Park City, Montana*, 19 FCC Rcd 2092, 2094 (2004) (Park City's population is less than 1% of that of Billings, and Park City is located 21 miles from Billings); *Ada, Newcastle and Watonga, Oklahoma*, 11 FCC Rcd 16896, 16899 (1996) (Newcastle's population is less than 1% of that of Oklahoma City, and Newcastle is located 15 miles from Oklahoma City). Nevertheless, the Commission has repeatedly stated that these factors are less important than evidence of independence. *See Headland*, 10 FCC Rcd at 10355. The following analysis of the

eight *Tuck* factors demonstrates the independence of Knightdale from Raleigh, Rocky Mount, and Durham.

(1) *Extent to which the residents of Knightdale work in Knightdale.*

According to 2000 Census figures, 378 of the 3,279 employed individuals in Knightdale, or 11.5%, work at their place of residence. *See* Exhibit 2. This percentage compares favorably with other independent communities. *See, e.g., Albemarle and Indian Trail, North Carolina*, 16 FCC Rcd 13876 (2001), *application for review pending* (11.3% of working-age residents worked in community); *Coolidge and Gilbert, Arizona*, 11 FCC Rcd 3610 (1996) (13% of Gilbert's working population actually worked in Gilbert).

(2) *Newspapers and other media that cover Knightdale's local needs and interests.* The *Eastern Wake News* is the "hometown" newspaper that serves a number of communities including Knightdale. It is published on Thursdays and features stories concerning the community of Knightdale. The *Knightdale Views* is a newsletter for the citizens of Knightdale that is published seasonally. The current issue contains articles on spring events in Knightdale and an economic development summit planned for Knightdale, and messages from the Mayor and Public Safety Department. The *Chamber Communicator*, a monthly publication of the Knightdale Chamber of Commerce, contains information about the business community of Knightdale. *See* Exhibit 2.

(3) *Community leaders and residents perceive Knightdale as being separate from Raleigh, Rocky Mount, and Durham.* Knightdale started out as a farming community with the majority of the farmers in the area growing tobacco. At the end of the nineteenth century, many residents in the area wanted to establish a town, and Henry Haywood Knight donated some of his land to the Norfolk and Southern Railroad

Company in hopes that the railroad would bring business to the area. In 1904, the railroad was established in the community, which was renamed Knightdale to honor Henry Haywood Knight. Knightdale was incorporated in 1927 and began to transition from a farming community to a business community. Between 1990 and 2000 the population of Knightdale increased from 1,700 to more than 6,000 residents, making it the seventh fastest growing town in North Carolina. Today, Knightdale continues to experience economic growth, while still maintaining the sense of community that can only be experienced in a small town. As the Knightdale Chamber of Commerce states, "in Knightdale, we are big enough to offer many cultural, recreational, and employment opportunities, yet small enough to maintain our identity as a community." See Exhibit 2.

(4) *Knightdale has its own local government and elected officials.*

Knightdale has a mayor-council-manager form of government. The powers and duties of the Mayor are conferred upon him by law and by the Council. The Mayor is the official head of the city for the purpose of service of civil process, and for all ceremonial processes. The Mayor presides over all Council meetings and only votes in cases of a tie. The Council consists of five members who are elected to staggered terms. Each Council Member also serves on a number of Knightdale's committees. The Manager is the chief administrator of the city and is responsible for overseeing the daily operation of Knightdale. In addition to the Mayor, Council Members, and Manager, the local government of Knightdale consists of a Town Attorney, Town Engineer, and individuals who work in the following departments: Administration, Finance, Legislative, Parks and Recreation, Planning, Public Safety, and Public Works. Knightdale also has a Land Use Review Board and a Parks and Recreation Advisory Board. See Exhibit 2.

(5) ***Knightdale has one zip code and its own phone book.*** The zip code assigned to Knightdale is 27545, and the U.S. Postal Service operates two offices in Knightdale. BellSouth publishes the Knightdale-Wendell-Zebulon phone book, which contains yellow and white page directories for the community of Knightdale. *See Exhibit 2.*

(6) ***Knightdale has its own commercial establishments and health facilities.*** Knightdale is home to the Knightdale Chamber of Commerce and a variety of businesses and commercial establishments. A number of local businesses identify with the community by using “Knightdale” in their name, including Knightdale Animal Hospital, Knightdale Chiropractic Center, Knightdale Fitness Center, Knightdale Florist, Knightdale Seafood and BBQ, Knightdale Tire and Service Center, and Knightdale Tractor. Other Knightdale retail and commercial businesses include Arnold Eye Care, BB&T Bank, Bank of America, Blimpie Subs, Capital City Roofing, Domino’s Pizza, Edward Jones, First Citizens Bank, H&R Block, Johnson Auto Body, Kindercare Learning Centers, Nationwide Insurance, and River Ridge Golf Club. *See Exhibit 2.*

Health care is provided to the community of Knightdale by a number of sole practitioners. Knightdale is also home to a number of religious and community organizations, including Knightdale Baptist Church, Knightdale Methodist Church, Green Pines Baptist Church, Faith Baptist Church, Knightdale Church Alliance, Kiwanis Club of Knightdale, Knightdale Lions Club, and Knightdale Rotary Club. *See Exhibit 2.*

(7) ***Knightdale is a separate and distinct advertising market from Raleigh, Rocky Mount, and Durham.*** The *Eastern Wake News* provides the businesses of

Knightdale with a place to advertise to the residents of Knightdale without relying on the Raleigh, Rocky Mount, and Durham advertising markets. *See Exhibit 2.*

(8) ***Knightdale has its own schools, library, police protection and fire protection.*** Knightdale students currently attend three public schools, Knightdale Elementary, Lockhart Elementary, and Hodge Road Elementary, which are all part of the Wake County Public School System. Additionally, Knightdale High School and Forestville Elementary are scheduled to open in August 2004 in Knightdale. The East Regional Library, formerly the Knightdale Public Library is part of the Wake County Public Library System. It was remodeled in 1999 and the new 21,000-square-foot facility has a collection of almost 100,000 volumes and a staff of 17 full-time employees. It boasts a small conference room for community use as well as a quiet study room and children's programming room. The library is currently open 71 hours a week and has 20 computers for patrons to use in addition to the computerized book catalog. The Knightdale Police Department and the Knightdale EMS provide the community of Knightdale with police, fire, and EMS services. *See Exhibit 2.*

4. Knightdale is clearly independent of Raleigh, Rocky Mount, and Durham and therefore deserving of a first local service. As demonstrated above, Knightdale satisfies all of the independent community indicia required by *Tuck*.

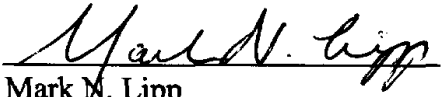

III. CONCLUSION

For the foregoing reasons the Commission should delete Channel 291C0 at Wilson, North Carolina and allot Channel 291C0 at Knightdale, North Carolina as that community's first local service. Capstar reiterates that if the Commission allots Channel 291C0 at Knightdale as that community's first local service, it will file an application and construct the facilities as

authorized. The Commission should promptly issue a Notice of Proposed Rule Making as described herein.

Respectfully submitted,

CAPSTAR TX LIMITED PARTNERSHIP

TECHNICAL EXHIBIT

PETITION FOR RULE MAKING
TO AMEND THE FM TABLE OF ALLOTMENTS

WILSON, NORTH CAROLINA
KNIGHTDALE, NORTH CAROLINA

Technical Narrative

This technical narrative and accompanying Figures have been prepared on behalf of station WRDU (FM), Wilson, North Carolina, in support of a Petition for Rule Making to amend 47 C.F.R. Section 73.202(b) to reallocate channel 291C0 at Wilson, North Carolina to channel 291C0 at Knightdale, North Carolina, and to modify the license of WRDU (FM) to specify operations on channel 291C0 at Knightdale, North Carolina.

As the requested change is mutually exclusive with the channel's current allotment, Petitioner invokes the provisions of 47 C.F.R. Section 1.420(i).

The following is a summary of the merits of this reallocation proposal:

- The community of Knightdale, North Carolina (2000 Census population 6,017 persons) will be provided with its first local aural transmission service.
- The community of Wilson, North Carolina (2000 Census population 43,068 persons) will continue to have local aural service from four radio stations.
- The proposed channel 291C0 allotment site at Knightdale, North Carolina satisfies the Commission's allocations spacing rules for a fully spaced Class C0 facility¹.

¹ The proposed allotment reference coordinates are 35° 47' 50" North, 78° 22' 15" West. See this Exhibit under the heading "Compliance With FCC Rules" for details on allocations considerations with respect to this

Channel 291C0, Wilson, North Carolina and Knightdale, North Carolina

- The 60 dBu gain area associated with the proposed reallocation of channel 291C0 to Knightdale, North Carolina will encompass 166,327 persons, while the 60 dBu loss area will encompass 157,536 persons, for a net gain of 8,791 additional persons served within the WRDU (FM) 60 dBu service contour².
- The channel 291C0 60 dBu loss area is well served by a number of radio services³.

site. Also see *Figure 1* accompanying this Exhibit for the allocations spacing study.

² See *Figure 2*.

³ See *Figures 3 and 4*.

Table of Figures Accompanying this Exhibit

Figure 1	WRDU (FM) Channel 291C0 Allocations Spacing Study
Figure 2	WRDU (FM) Channel 291C0 60 dBu Gain and Loss Areas
Figure 3	Depiction of Services to WRDU (FM) 60 dBu loss area
Figure 4	Tabulation of Services to WRDU (FM) 60 dBu loss area
Figure 5	WRDU (FM) 291C0 Proposed 70 dBu Service to Knightdale, NC

Proposed Change in the FM Table of Allotments

Wilson, North Carolina is located in Wilson County, North Carolina, and has a 2000 U.S. Census population of 43,068 persons. Under this proposal, Wilson will continue to receive local aural radio service from radio stations WVOT(AM), WGTM(AM), WLLY(AM) and WAJC(FM).⁴

Knightdale, North Carolina is located in Wake County, North Carolina, and has a 2000 U.S. Census population of 6,017 persons. Knightdale has no local FM or AM aural broadcast service and, therefore, Petitioner's proposal would bring a first local aural broadcast service to Knightdale.

Accordingly, Petitioner requests modification of the FM allocation table as follows:

<u>Community</u>	<u>Present</u>	<u>Proposed</u>
Wilson, NC	291C0	-
Knightdale, NC	-	291C0

Compliance With FCC Rules

The attached *Figure 1* is a tabulation of required separations pertinent to use of channel 291C0 at Knightdale, North Carolina. The allotment reference site complies with the Commission's minimum distance separations contained in Section 73.207 of the FCC's rules to all existing, authorized and proposed stations and allotments as a full Class C0 allotment, except for the existing channel 291C0 allotment at Wilson, North Carolina, for which this proposal is a mutually exclusive substitute.

Operation from the channel 291C0 reference site will provide the requisite city grade (70 dBu) signal to all of Knightdale.⁵ *Figure 5* is a map which was developed using the 2000 U.S. Census Topologically Integrated Geographic Encoding and Referencing (TIGER) Line files which depicts the city grade coverage (70 dBu) contours based on class C0

⁴ WAJC(FM) operates on reserved NCE channel 213 and thus does not appear in the table of allotments.

⁵ SEE *Figure 5* herein.

facilities (ERP 100 kW/HAAT 450 meters) at the proposed allotment site. As shown, all (100%) of Knightdale is located within the 70 dBu City Grade contour. Knightdale is located 9.9 kilometers from the proposed WRDU channel 291C0 allotment site.

Urbanized Area Considerations

The WRDU (FM) 291C0 70 dBu contour currently encompasses 100% of the Raleigh, NC Urbanized area, and 100% of the Rocky Mount, NC Urbanized Area. The 70 dBu contour for this proposed operation will likewise encompass 100% of the Raleigh and Rocky Mount Urbanized areas⁶.

The WRDU (FM) 70 dBu contour currently encompasses 0% of the Durham, NC Urbanized area. Under this proposal, the WRDU (FM) 70 dBu contour will encompass 100% of the Durham, NC Urbanized area.

60 dbu Gain and Loss Areas

There are currently 1,800,589 persons residing within the WRDU (FM) channel 291C0 60 dBu contour. There will be 1,809,380 persons residing within the proposed WRDU (FM) 291C0 60 dBu contour. 1,643,053 persons currently residing within the WRDU (FM) 60 dBu contour will continue to receive service under this proposal. 157,536 persons will lose service. 166,327 persons will gain new service within the proposed WRDU (FM) 60 dBu contour as a result of the proposed 291C0 operation at Knightdale, for a net aggregate gain of 8,791 persons. See *Figure 2*.

The 60 dBu loss area related to the reallocation of channel 291C0 to Knightdale is well served by many aural services. See *Figures 3 and 4*.

Coverage Contours

The FM predicted coverage contours were calculated in accordance with the provisions of 47 C.F.R. Section 73.313,

⁶ SEE *Figure 5*.

Channel 291C0, Wilson, North Carolina and Knightdale, North Carolina

except that, in accordance with current FCC practice, uniform terrain was assumed in all directions.

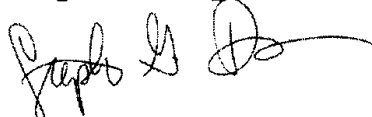

Population and Area

The population within the FM primary service contour (1 mV/m) was calculated using a computer program that utilizes the 2000 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid lies within each service area.

Conclusion

Channel 291C0 can be reallocated from Wilson, North Carolina to channel 291C0 at Knightdale, North Carolina, in compliance with all applicable Commission rules. The community of Knightdale, North Carolina would be provided with a first local aural transmission service, and the community of Wilson, North Carolina will continue to have local aural service. No service will be lost in any underserved area⁷ and no new underserved areas will be created as a result of this proposal. Therefore, Petitioner requests the reallocation of channel 291C0 from Wilson, North Carolina to Knightdale, North Carolina, and the modification of the license of WRDU (FM) to specify operations on channel 291C0 at Knightdale, North Carolina be granted.

Respectfully submitted,

Stephen G. Davis
Senior Vice President
Capstar TX Limited Partnership

2625 South Memorial Drive, Suite A
Tulsa, Oklahoma 74129

⁷ Defined as an area receiving service from less than five aural broadcast services. In the case of this proposal, the 60 dBu loss areas will continue to receive 60 dBu service from multiple sources, local and distant. See Figures 3 and 4.
